

Powering Tomorrow with Precision Engineering

Soaring High

With Ambitions

Where Innovation Meets Industrial Mastery.

We are your trusted partner in heavy industrial fabrication, blending precision and quality to craft solutions that endure. Driven by a commitment to sustainability and innovation, we're not just building projects; we're shaping the future of industrial excellence.

Choose Shyam Fabrotech for fabrication services that bring your vision to life, with expertise that stands the test of time. Together, let's create a legacy of strength and innovation.

Vision

To be the leading force in heavy industrial fabrication, pioneering innovative and sustainable solutions that set new standards of excellence.

Mission

We are dedicated to transforming our clients' visions into reality through sustainable practices and innovative solutions, while upholding our commitment to quality, reliability, and long-term partnerships. Together, we build the future, one project at a time.

Businesses from different
cities across Nation

We believe in shaping the future responsibly. Our processes are designed to minimize environmental impact, and we constantly seek innovative ways to enhance our services. Sustainability isn't just a buzzword for us—it's a guiding principle.

From intricate designs to massive structures, our fabrication services cover a broad spectrum of industrial needs. We handle everything from the smallest components to the largest assemblies with the utmost precision and attention to detail.

Why Choose Us

Expertise

Decades of experience in heavy industrial fabrication.

Innovation

Cutting-edge technology and forward-thinking solutions.

Quality

Uncompromising standards of precision and durability.

Sustainability

A commitment to eco-friendly practices in every project.

Partnership

We work closely with our clients to ensure their visions are fully realized.

Heavy Industrial Fabrication:

From intricate designs to massive structures, our fabrication services cover a broad spectrum of industrial needs. We handle everything from the smallest components to the largest assemblies with the utmost precision and attention to detail.

Hot-Dip Galvanizing

We have collaboration with different industries for providing service of Galvanizing for different types of structural steel length ranging upto 12 mtrs.

Sustainability and Innovation:

We believe in shaping the future responsibly. Our processes are designed to minimize environmental impact, and we constantly seek innovative ways to enhance our services. Sustainability isn't just a buzzword for us—it's a guiding principle.

Solar Sector

SOLAR DUAL PUMP STRUCTURES

12 MTR, 9 MTR, 6 MTR & 4.5 MTR
of CREDA, OREDA, JREDA & PHE

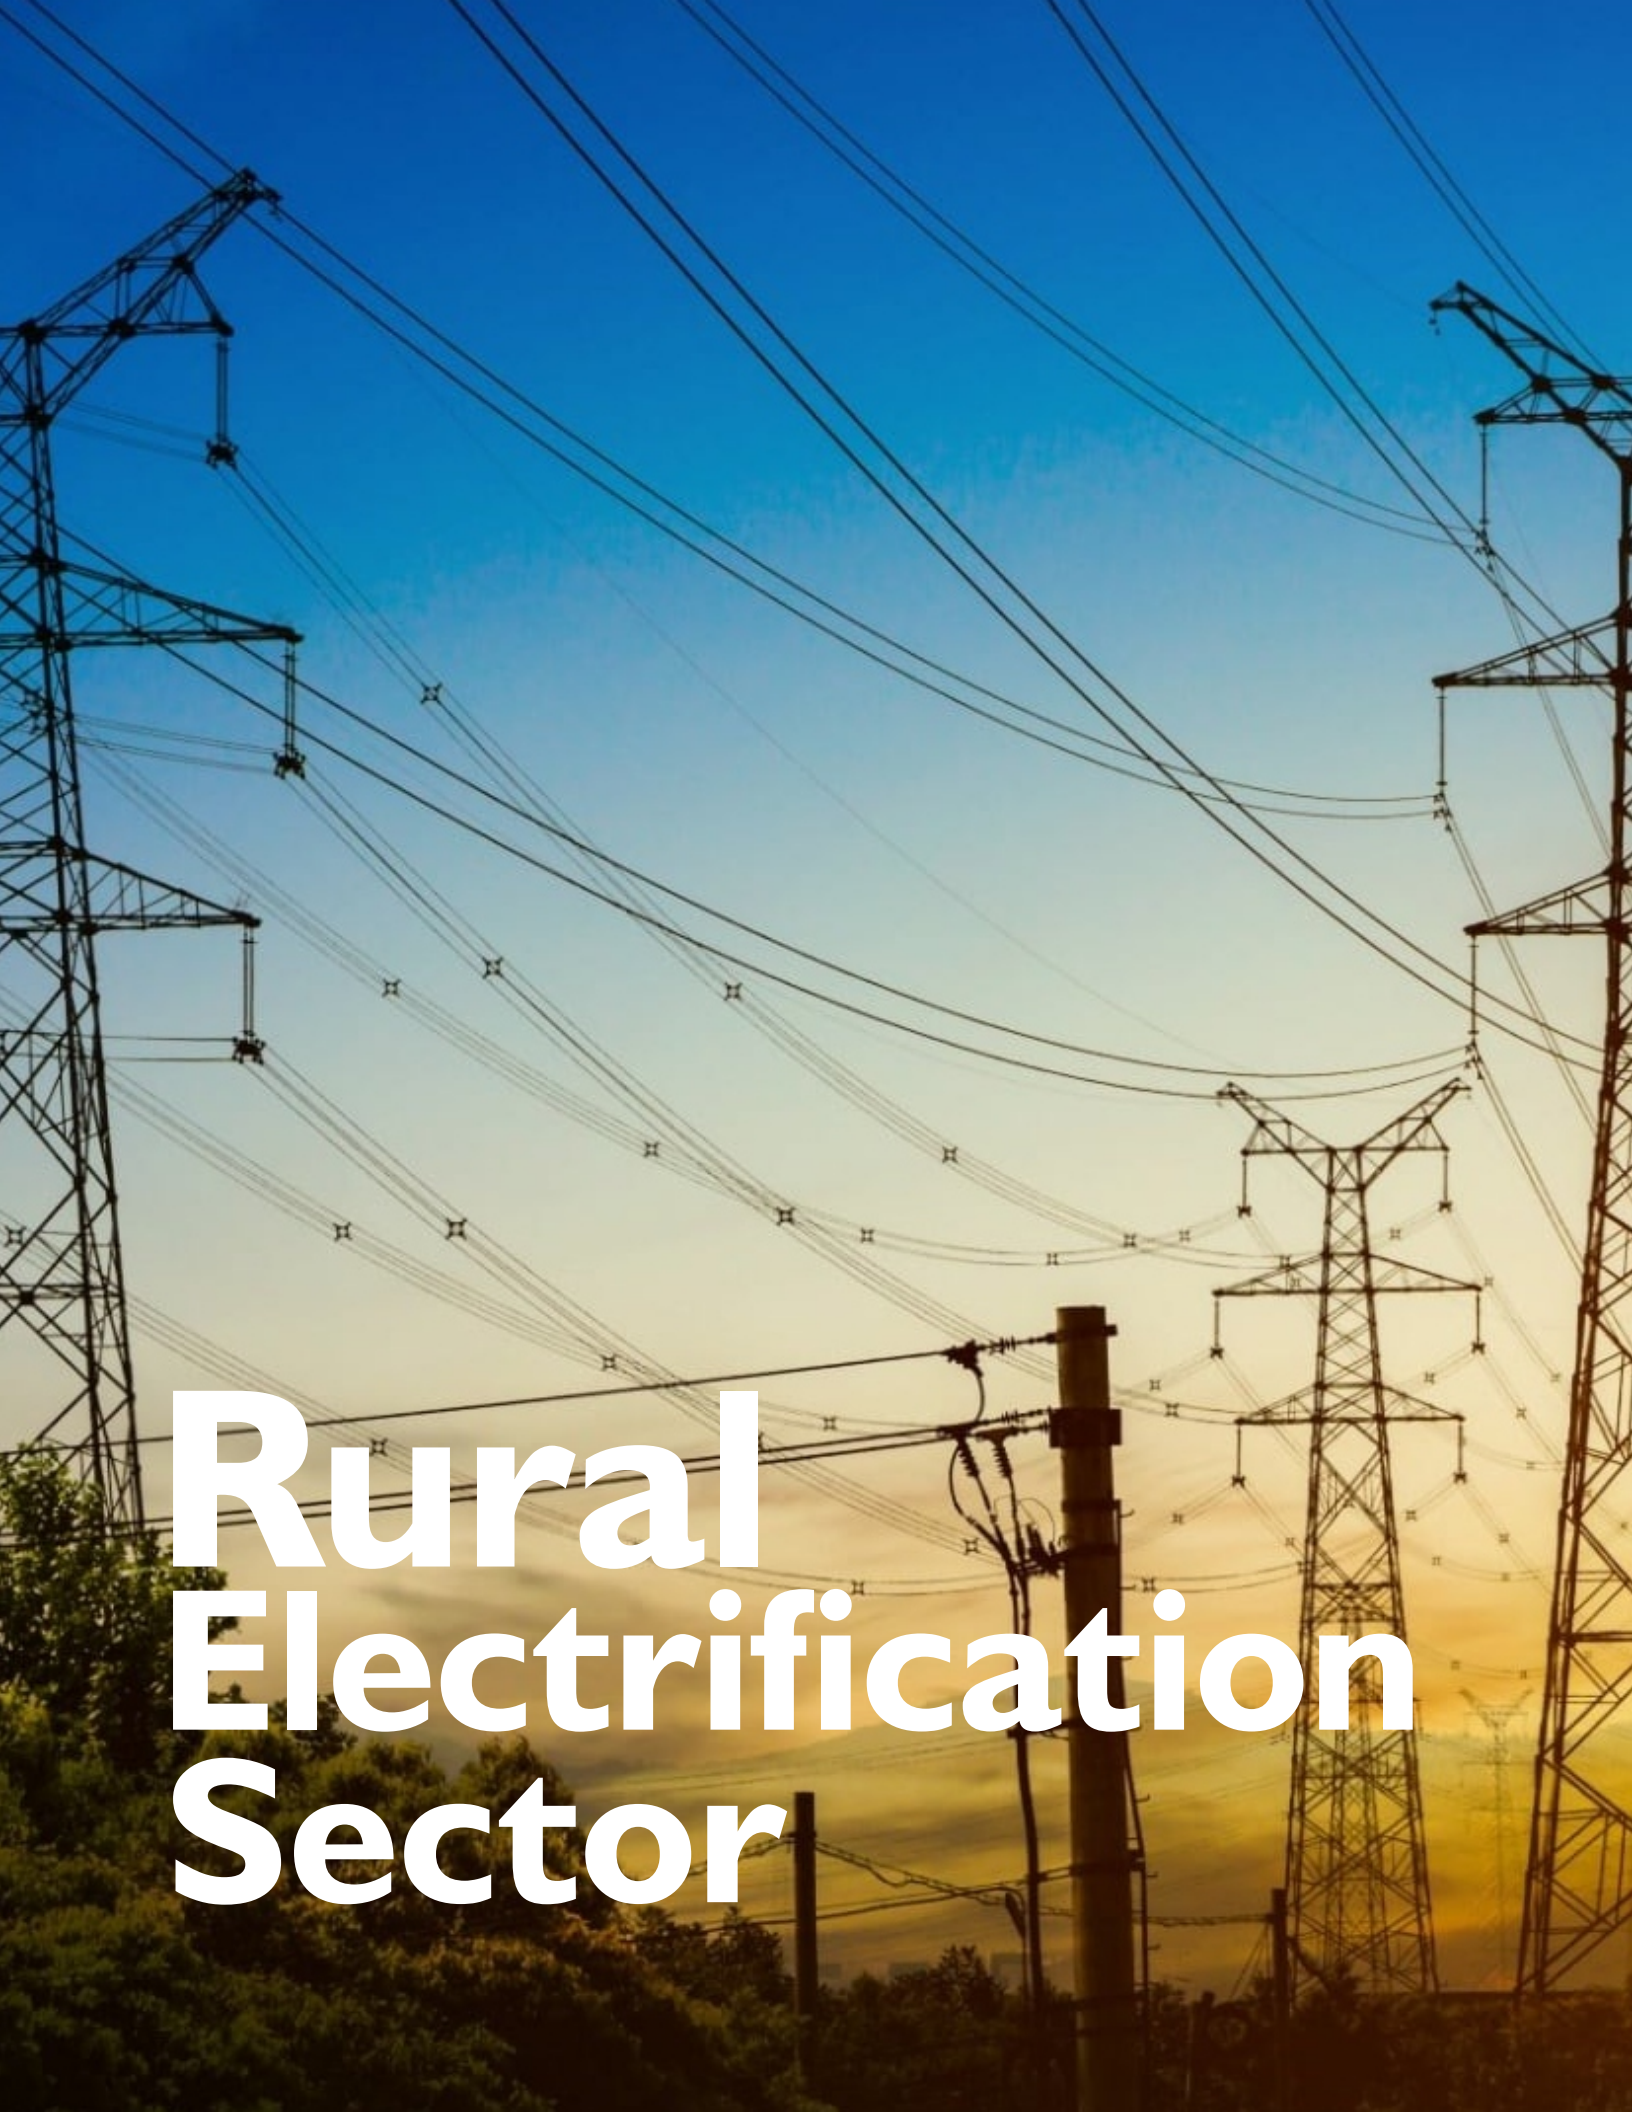

IRRIGATION PUMP STRUCTURES

1 HP, 2 HP, 3 HP, 5 HP, 7.5 HP, 10 HP

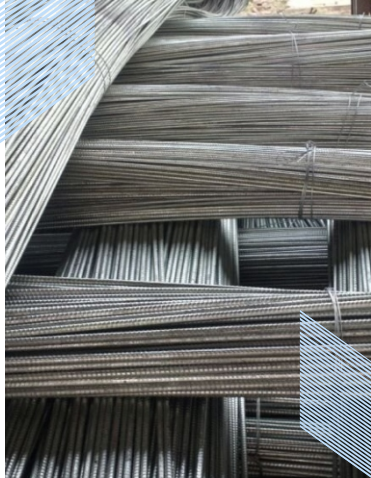

PANEL MOUNTING STRUCTURES

1 KW, 2KW, 3KW

Rural Electrification Sector

GI EARTHING STRIP

25x5, 32x5, 50x5

CROSS ARM

11 KV AND 33 KY LINE
RANGING FROM 5 MM AND 6 MM

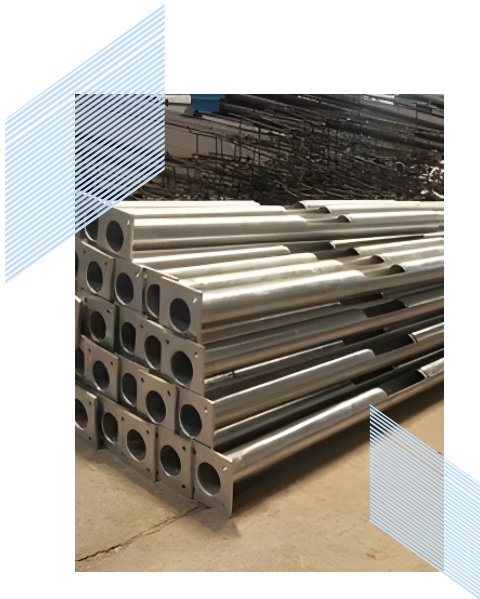

CLAMP

ZA TYPE, CA TYPE, RL
TYPE, SCA TYPE, DES TYPE

HIGH MASK LIGHT SYSTEM

STREETS, HIGHWAYS, STADIUMS
RANGING FROM 9 MTR TO 30 MTR

STREET LIGHTNING POLE

TUBULAR POLE, OCTAGONAL POLE,
DECORATIVE POLE RANGING FROM
5 MTR TO 12 MTR SOLAR STREET LIGHT

Railway Sector

RAILWAY OHE STRUCTURES

RAILWAY FABRICATED STRUCTURES

Heavy Industrial Fabrication Sector

REFINERY STRUCTURE

INDUSTRIAL PLATFORM & RAILING

INDUSTRIAL SHED

Khasra No. 6/1, Near Appolo Pipe Industries,
Sakara, Dhaneli, Raipur (C.G.) 492001
